

USER MANUAL

Step-by-step guide to every feature

For residents, parents, gate staff, society / preschool admins, and the platform owner.

Product	GATEZO — one AI-first app for gated societies and preschools
Platforms	Android app (APK). The same app also runs in a web browser for training.
How to read this	Button and screen names match the app exactly, in quotation marks.
Plans	Some features need Prime or Platinum. Locked tiles say which plan is required.

Open the matching chapter for your login. You only see the tabs for your role.

1. Welcome to GATEZO

GATEZO is the app your society or preschool uses instead of a mix of WhatsApp groups, paper visitor registers, and spreadsheets for dues. One login covers money, the gate, community, and records.

What the app is for

- Money — maintenance or fees bills, UPI / card payments, cash receipts, dues and reminders.
- People at the gate — visitors, deliveries, pre-approved guests, vehicle QR (Platinum), staff attendance (preschool).
- Community — announcements, neighbours' / parents' board, community market, helpdesk, directory.
- Facilities — clubhouse / hall booking, home services, trusted helpers, SOS.
- Records — a payment history for every flat or student, plus reports and backups on higher plans.
- Help — Ask GATEZO on Home (Prime), a full Assistant chat, and Help & how-to.

Note. Your organisation is either a Society or a Preschool. The buttons change wording (Flat ↔ Student, Maintenance ↔ Fees, Resident ↔ Parent). The steps are the same. See chapter 3.

How this manual is organised

- Chapters 5–6: install, sign in, profile — everyone.
- Chapter 7: Resident / Parent — every everyday feature.
- Chapter 8: Guard / gate desk.
- Chapter 9: Society / preschool Admin.
- Chapter 10: Preschool extras (My child, pickups, staff, student fees).
- Chapter 11: Platform owner (superadmin).
- Chapter 12: paying with UPI.
- Chapter 13: Ask GATEZO.
- Chapter 14: if something does not work.

2. Who uses GATEZO (roles)

You do not pick a role. The office creates your account (or you register with a join code and wait for approval). After Sign In, the bottom tabs match your role.

Role	You will see this label	Bottom tabs	Main job
Resident / Parent	Resident (society) or Parent (preschool)	Home · Maintenance / Fees · Visitors · Community	Pay dues, approve visitors, gate passes, community, bookings.
Guard	Gate desk	Home · Gate · Staff* · Community · Gate log	Log visitors, admit gate-pass codes, respond to SOS. *Staff tab is preschool only.
Admin	Society admin or Preschool admin	Home · Maintenance / Fees · Members / Accounts · Staff* · Community · Gate log	Bills, people, approvals, reports, the gate log.
Platform owner	GATEZO Platform owner	Overview · Societies	All organisations, plans, branding, backups, marketplace moderation.

Note. Staff appears only when the organisation is a preschool.

3. Society vs preschool words

Same screens. Different labels.

In a society you see	In a preschool you see
Flat / unit	Student
Resident	Parent
Maintenance	Fees
Wing	Class (Nursery, Jr KG, Sr KG, Preschool)
Members	Accounts
Society balance	Fees balance
Amenities / Book clubhouse	Hall booking / Book hall
Clubhouse / Party Hall	Open Hall / Activity Room
Neighbours' board	Parents' board
Remind unpaid residents	Remind pending fees
Manage members & flats	Manage staff & students

This manual uses society words first, then preschool in parentheses when it helps. If your Home folders say School and Help instead of At the gate, you are on a preschool login.

4. Plans (Base, Prime, Platinum)

The platform owner sets the plan on your society or preschool. If a shortcut is locked, the app shows the required plan (for example “Prime feature”) and “Ask your GATEZO owner to upgrade.”

Your plan: Home (admin) → Operations → “Your plan”, or Members → “Plans & pricing”.

Plan	What it is for	Includes
Base	Core operations to run digitally	Visitor log; maintenance / fee billing and online pay; late-fee policy; maintenance heads; Buy & Sell; announcements; helpdesk; directory; basic reports and profile.
Prime	Automation, AI & engagement	Everything in Base, plus Ask GATEZO / Assistant, Gate pass, amenities / hall booking, WhatsApp + email reminders, rent management, automated monthly backup and wing-wise exports.
Platinum	Hardware-integrated smart gate	Everything in Prime, plus vehicle QR registry and printable windshield passes, gate scanners, real-time entry/exit, priority support and custom branding.

Note. Buy & Sell (Community market) is available on Base. Ask GATEZO on Home needs Prime. Vehicle passes and Vehicle gate need Platinum.

5. Install the app and sign in

5.1 Install on Android

1. Open the install link or QR code from your office (an Expo / GATEZO APK page).
2. Download the .apk file.
3. If Android asks, allow Install unknown apps / Install from this source for your browser or Files app.
4. Open the file and tap Install.
5. Open GATEZO. The splash and sign-in screen show the GATEZO name.

Note. If you already had an older GATEZO / society app, install the new APK over it (version code 32 or higher includes the latest phone fixes). You can keep the same login.

5.2 Sign in

Screen title: “Sign in”. Tagline on a standard login: “Smart living, simplified”.

1. Enter Email and Password.
2. Tap Show if you want to check the password, then Hide.
3. Tap Sign In. The first sign-in after the server has been idle can take extra seconds.

If sign-in fails, these are the usual messages:

- Empty fields → “Please enter both your email and password.”
- Wrong email or password → a message that the email or password is not right.
- Inactive organisation → the society/preschool is currently inactive.
- Network → “Can't reach the GATEZO server...”
- New self-registered account → wait until an admin approves you.

Accounts are created by your admin. The login screen says: “Accounts are created by your admin. Contact them if you can't sign in.”

5.3 Advanced server settings

Only use this if your office told you to. On Sign in, open “Advanced server settings” and enter the Server URL they gave you. Phones in production should already point at the hosted GATEZO API — do not type localhost.

5.4 Forgot password

1. On Sign in, tap Forgot password?
2. On “Reset password”, enter your email and tap Send code.
3. Check email for a 6-digit Reset code. (If the office has not connected email, a developer banner may show the code on screen.)
4. Enter Reset code, New password, and Confirm new password. Password rule: at least 8 characters, 1 upper, 1 lower, 1 number.
5. Tap Reset password. You should see “Password reset” — “Your password has been updated. You can now sign in.”

5.5 Register as a resident (join code)

Use this only if the office shared a self-registration code. Screen title: “Register as a resident”.

1. On Sign in, tap Register.
2. Enter Society join code (example format: GM7K2Q).
3. Enter Your flat / unit number (example: A-1002).
4. Enter Full name, Email, Phone (optional), Password, Confirm password.
5. Tap Register.
6. You should see “Request sent” — “You'll be able to sign in once an admin approves your account.”
7. Ask the office to Approve you on Members.
8. Then Sign In with the email and password you chose.

5.6 Change password (already signed in)

1. Tap the profile icon (top right on Home).
2. Under Account & security, tap Change password.
3. Enter Current password, New password, Confirm new password.
4. Tap Update.

5.7 Log out

1. Open profile (or tap Logout on the Home header if shown).
2. Tap Log out.
3. Confirm “Are you sure you want to log out?”

6. Profile, notifications and support

Tap the profile icon on Home. Sections: Account details, Notifications, My orders & payments (residents), Account & security, Support & feedback.

Profile settings

Who: Everyone **Where:** Home → profile icon

See your name, unit (flat/student), role, and a short GATEZO member ID.

1. Turn Push notifications on or off. On web you may see: “This preference applies to the GATEZO mobile app.”
2. Residents: turn “Show my phone in directory” on if neighbours / parents may call you from Directory. Off = number hidden.
3. Residents: open My orders & payments for a history of orders and payments.
4. Support & feedback: call, email, or send feedback. Hours shown in-app: Mon–Sat, 9am – 7pm IST.

Note. In-app support contacts are the numbers configured for your deployment (profile → Support & feedback).

7. Resident / Parent — every feature

Bottom tabs: Home · Maintenance (Fees) · Visitors · Community. Home folders: society — At the gate, Bills & bookings, Your society, Community. Preschool — School, Help.

7.1 Home dashboard

Home snapshot

Who: Resident / Parent **Where:** Tab: Home

Greeting (Good morning / afternoon / evening), your name, badge (flat or role), Logout, profile. Charts cover the last 30 days of visitors and bill status. Pull down to refresh.

1. Read “Needs your attention” if anything is waiting (pending visitor, unpaid bill).
2. Visitor donut segments: Approved, Pending, Rejected, Left at gate.
3. Tap a folder to expand shortcuts.
4. Use Ask GATEZO on this page if your plan includes it (Prime).
5. Emergency SOS sits on Home — use only for a real emergency (see 7.3).

Note. If the summary does not load, pull down to refresh. The rest of Home still works.

7.2 Ask GATEZO (Home)

Ask GATEZO

Who: Resident / Parent (Prime plan) **Where:** Home → box titled “Ask GATEZO”

Type (or speak on the phone) a question about bills, visitors, or bookings. You get an answer from your society data, often with a button to open the right screen.

1. Type in the box. Placeholder: “Type a question about bills, visitors, or bookings”.
2. On the phone, tap the microphone if you want to speak. Allow microphone permission if asked.
3. Send / wait for the answer. Tap the action button if one appears (for example to pay or book).
4. Tap Clear to start again.
5. For a longer chat: Community → Assistant.

Note. If voice returns an error, type instead. Voice needs the live GATEZO server to accept transcription.

Examples to try:

- How much maintenance do I owe?
- How do I book the clubhouse?
- Who visited my flat?
- How do I raise a complaint?
- What can you help with?

7.3 Emergency SOS

Emergency SOS

Who: Resident / Parent (and other roles from Home) **Where:** Home → Emergency SOS · or Community stack

One tap alerts guards, admins and nearby responders. Types: Medical, Security, Fire, Other.

1. Open Emergency SOS.
2. Choose the type.
3. Confirm “Raise ... SOS?” and tap Send SOS.
4. You should see “SOS sent”. Stay where you are if it is safe.
5. Optional: set responder skills in SOS settings (Doctor, Nurse, First aid, Security-trained, Other) so you can be called when nearby.

Important. SOS is only for real emergencies. It alerts guards, admins and nearby neighbours / parents immediately.

7.4 Visitors

Approve a visitor at the gate

Who: Resident / Parent **Where:** Tab: Visitors · or Home → At the gate → Visitors at gate

When a guard logs someone for your flat, you get a push notification. Title: “Visitors”. Subtitle: “Approve or review your gate entries”.

1. Open the Visitors tab (or tap the notification).
2. Find the person whose status is Waiting. You can see photo and purpose when the guard attached them.
3. Tap Approve, Reject, or Leave at gate.
4. Statuses you will see: Waiting, Approved, Rejected, Left at gate.
5. Pull down to refresh. Empty: “No visitors yet. Pull down to refresh.”

7.5 Gate passes (pre-approve guests)

Create a gate pass

Who: Resident / Parent (Prime) **Where:** Visitors → Gate passes · or Home → At the gate → Gate pass

Pre-approve a guest or delivery so the guard can admit them with a code — no call required. Title: “Gate passes”. Subtitle: “Pre-approve guests & deliveries”.

1. Open Gate passes.
2. Tap to pre-approve a guest or delivery.
3. Choose type: Guest, Delivery, Cab, Service, Other.
4. Enter Guest name (or Delivery / company name) and Contact number if you have it.
5. Choose validity: 2 hours, Today, Tomorrow, or 3 days.
6. Tap Create pass.
7. Share the code with your guest (Share code).
8. At the gate the guard taps Admit a pre-approved pass, enters the code, and Admit.
9. To stop a pass early: open it → Cancel pass → confirm.

Note. Pass statuses: Active, Admitted, Expired, Cancelled. Empty: “No gate passes yet.”

7.6 Vehicle passes

Register a vehicle and print a gate QR

Who: Resident / Parent (Platinum) **Where:** Visitors → Vehicle passes · or Home → At the gate → Vehicle passes

Title: “Vehicle passes”. Subtitle: “Register vehicles & print gate QR”. Types: Car, Bike / Scooter, Other.

1. Open Vehicle passes.
2. Add the vehicle (registration number and type).
3. Use Print gate pass. The print footer says “Vehicle Gate Pass” and “Stick this QR on the windshield...”.
4. Use Regenerate QR if a sticker is lost. Activate or deactivate as needed.

7.7 Pay maintenance / fees

Pay a bill

Who: Resident / Parent **Where:** Tab: Maintenance (or Fees) · Home → Bills & bookings → Pay maintenance

Title: “Maintenance” or “Fees”. Subtitle: “Bills, payments & receipts”. Banner explains that pay opens with UPI first.

1. Open the Maintenance / Fees tab. The header shows outstanding.
2. Use Filter by month if you need an older bill (All months, or a specific month).
3. On an unpaid bill, tap Pay (or Pay ₹... for an instalment / partial).
4. On “Pay via UPI”, choose Google Pay, PhonePe, Paytm, UPI ID / QR, or Card / net banking. Or Cancel.
5. Complete checkout (Razorpay). The merchant name should show GATEZO.
6. Full payment: receipt modal “Payment Receipt” → Download / Print receipt → Close. The bill shows PAID.
7. Partial: “Payment received” with the remaining balance. Pay again later for the rest.

Note. Empty: “No bills yet.” or “No bills for the selected month.” If payment fails you will see “Payment failed”. Cash payments are recorded by the office, not by you — those receipts show CASH.

Receipt method labels you may see: “Cash (collected offline)”, “Razorpay (UPI/Card)”, “Test mode”.

7.8 Rent agreement (rented flats)

Submit and track a lease

Who: Resident (society, Prime) — rented flats **Where:** Maintenance tab → “Rent agreement — submit & track (rented flats)” · screen “Rent agreements”

Subtitle for residents: “Submit & track your lease”.

1. Open Rent agreements from the Maintenance tab link.
2. Submit the agreement details the office asked for.
3. Track status and expiry from the same screen. The office verifies leases and can alert before expiry.

7.9 Transparency

Where your money goes

Who: Resident / Parent **Where:** Home → Your society → Transparency · or Maintenance stack → Transparency

Title: “Transparency”. Subtitle: “Where your money goes”. A 0–100 score from the books: payments in, expenses out, sealed on a tamper-evident ledger.

1. Open Transparency.
2. Read the score and money in vs out.
3. The score combines: ledger intact, itemised expenses, books updated in 45 days, dues collected, payout account on file, recent committee updates.
4. This page does not take a payment. It is a view of the books.

7.10 Sustainability (society)

Green score and water use

Who: Resident (society) **Where:** Home → Your society → Sustainability · or Maintenance → Sustainability

Title: "Sustainability". Subtitle: "Green score & water metering". This does not change what you pay in maintenance.

1. Open Sustainability.
2. See your flat, the society median, and a top-savers list.
3. Scoring is from monthly litre readings the office records (or imports by CSV), compared with the median.

7.11 Book clubhouse / hall

Request an amenity slot

Who: Resident / Parent (Prime) **Where:** Community → Book clubhouse (or Book hall) · Home → Bills & bookings → Book clubhouse

Resident title: "Amenities" or "Hall booking". Tabs: Book, My bookings.

1. Open Book clubhouse / Book hall.
2. On Book, pick the facility, date, and a slot (Morning / Afternoon / Evening). Add notes if needed.
3. Submit. You should see "Request sent" — the admin must approve.
4. Watch My bookings. Statuses: Pending approval → Approved · pay to confirm → Booked & paid (or Declined / Cancelled).
5. When it says Approved · pay to confirm, tap Pay and complete UPI / card like a bill.

Note. If nothing is listed: "No amenities are open for booking yet. Your admin can enable the clubhouse from their Amenities screen." (Preschool wording talks about halls.)

7.12 Community — announcements and board

Read notices and post on the board

Who: Resident / Parent **Where:** Tab: Community

Title: "Community". Subtitle: "Announcements & neighbours' board" (or parents' board). Tabs: Announcements, Board.

1. Open Community. Official notices are under Announcements. Pinned items are marked Pinned. Use the listen bar if you want the notice read aloud (English / हिंदी / मराठी where offered).
2. Switch to Board. Categories: General, For sale, Question, Lost & found, Recommend.
3. Tap + (New post) to share something. Empty board: "No posts yet. Be the first to share something!"
4. Empty announcements: "No announcements yet." Only admins create announcements.

7.13 Home Services

Book cleaning, AC, trades, movers

Who: Resident (society) **Where:** Home → Community → Home services · Community shortcut "Home Services"

Title: "Home Services". Subtitle: "Book trusted partners into your flat". Tabs: Services, My bookings.

1. Open Home Services. Search: "Search cleaning, AC, painting...".
2. Pick a service. On the detail screen choose a package (Choose a package), date and slot.
3. Tap Book visit. You should see that the booking was placed.
4. Track it under My bookings. Instant jobs confirm themselves.

Note. Not shown on preschool Home. Home may also show a Home Services strip of offers.

7.14 Community market (Buy & Sell)

Buy, sell, borrow, skills, group-buy

Who: Resident / Parent **Where:** Home → Community → Community market · Community shortcut “Buy & Sell”

Title: “Community market”. Subtitle: “Buy, sell, borrow, share skills & group-buy”. Tabs: Browse, My listings.

1. Open Community market. Filter kinds: All types, Buy & Sell, Borrow / Lend, Skills, Group buy.
2. Filter categories such as Furniture, Electronics, Vehicles, Home Decor, Kids Items, Food, Services, Others.
3. Search: “What are you looking for?”
4. Open a listing for Product details. Use Chat with seller or WhatsApp if shown.
5. To list: open My listings (or +), add photos, price and description.
6. Owners and admins can delete a listing. The platform owner can moderate Buy & Sell across organisations.

7.15 Trusted helpers

Rated helpers whose ratings travel

Who: Resident / Parent **Where:** Home → Community → Trusted helpers

Title: “Trusted helpers”. Subtitle: “Ratings that follow the worker across societies”.

1. Open Trusted helpers.
2. Open a helper’s Trust Passport.
3. Rate 1–5 stars and optionally comment. You should see that the rating now travels with this worker.

7.16 Helpdesk

Raise a ticket

Who: Resident / Parent **Where:** Community → Helpdesk · Home folder Helpdesk

Title: “Helpdesk”. Quick actions: Call security, Call office, Directory, New ticket.

1. Open Helpdesk.
2. Tap + Raise a ticket / New ticket.
3. Pick a category: Plumbing, Electrical, Housekeeping, Security, Billing, General, Other.
4. Enter subject and description, then submit.
5. Open the ticket later to read status: Open, In progress, Resolved — and any resolution note.
6. Use Call security or Call office when you need a voice call instead of a ticket.

Note. Empty: “No tickets yet. Tap 'Raise a ticket' to report an issue.”

7.17 Directory

Find a neighbour or the office

Who: Resident / Parent **Where:** Community → Directory

Title: “Member directory”. Subtitle: “Reach someone in your society/preschool”.

1. Open Directory.
2. Search by name or flat/student.
3. Call or WhatsApp if a number is shown. Numbers appear only when that person enabled “Show my phone in directory”.

7.18 Services & helplines

Curated helplines

Who: Resident / Parent **Where:** Community → Services & help

Title: “Services & helplines”. A list of vendor / helpline contacts for your organisation.

1. Open Services & help from the Community shortcuts.
2. Tap a contact to call when numbers are listed.

7.19 AGM & voting (society)

Vote on motions and read minutes

Who: Resident (society) **Where:** Home → Your society → AGM & voting · Community stack

Title: “AGM & voting”. Subtitle: “Motions, e-voting, quorum & minutes”.

1. Open AGM & voting.
2. Open a motion, read the text, and vote while voting is open.
3. Read minutes of past meetings on the same screen.

Note. Not shown on preschool Home.

7.20 Help & how-to and Assistant

In-app how-to

Who: Everyone **Where:** Community → Help & how-to · or profile

Title: “Help & how-to”. Short topics that match this manual (Home, Ask GATEZO, Visitors, bills, Transparency, Sustainability, Community, Home Services, clubhouse, Helpdesk, AGM, Buy & Sell).

1. Open Help & how-to and tap a topic.
2. Or Community → Assistant for a full chat (“Ask anything about your society/school”) with starter chips.

7.21 Preschool parent extras

If your Home folders are School and Help, also follow chapter 10 (My child, pickup passes, pay fees).

8. Guard / gate desk — every feature

Bottom tabs: Home · Gate · Staff (preschool) · Community · Gate log. Home folder: Gate desk.

8.1 Home

Shortcuts: Log a new visitor, View gate log, Help & how-to. Preschool also: Child pickup, Staff attendance. Emergency SOS is for responding to alerts.

8.2 Log a new visitor

New visitor

Who: Guard **Where:** Tab: Gate · Home → Log a new visitor

Title: "New visitor". Subtitle: "Log an entry at the gate".

1. Open the Gate tab.
2. Optional: tap "Dictate details (AI)", speak name / phone / flat / purpose, then "Stop & fill form". Allow microphone if asked.
3. Take or attach a photo (allow camera if asked).
4. Enter name, phone, vehicle if any.
5. Pick the flat (or student).
6. Pick purpose: Guest, Delivery, Cab, Service, Other. Preschool also has Pickup and Drop.
7. Submit. Society: "Sent" — residents are notified to approve. Preschool: "Entry logged" — no resident approval step.

Note. Errors you may see: "Missing info", "Microphone needed", "Camera needed".

8.3 Admit a pre-approved pass

Gate-pass code

Who: Guard **Where:** Gate tab → "Admit a pre-approved pass"

Residents share a 6-digit code from Gate passes (Prime).

1. On New visitor, tap Admit a pre-approved pass.
2. Enter the code the guest shows you.
3. Check the name and purpose.
4. Tap Admit. You should see "Admitted" and that the resident / parent was notified.

8.4 Gate log

Today's entries

Who: Guard / Admin **Where:** Tab: Gate log (labelled Visitors in some builds) · Home → View gate log

Title: "Gate log". Subtitle: "All society/preschool gate entries".

1. Open Gate log.
2. Scan statuses: Waiting, Approved, Rejected, Left at gate.
3. Preschool: use Mark exit when the person leaves, if that button is shown.
4. Pull down to refresh.

8.5 Child pickup (preschool)

Verify pickup pass

Who: Guard (preschool) **Where:** Home → Child pickup · screen "Child pickup"

Subtitle: "Verify the pass, then log pickup/drop".

1. Open Child pickup.
2. Enter Pickup pass code → Verify.

3. If Authorized, tap Log pickup or Log drop-off.
4. You should see “Logged” and that the parent was notified.
5. If you see “Pass not valid — do not release”, do not hand over the child. Call the office.

8.6 Staff attendance (preschool)

Same steps as admin — see 10.4. Guard tab: Staff.

8.7 SOS as a responder

1. Open Emergency SOS from Home when an alert is active.
2. Respond or resolve as the screen offers.
3. Use helpline / ambulance quick dial if the office configured numbers.

8.8 Community

Guards can read announcements, use Directory, Helpdesk contacts, Help & how-to, and Assistant. Posting on the board is for residents and admins.

9. Admin — every feature

Bottom tabs: Home · Maintenance / Fees · Members / Accounts · Staff (preschool) · Community · Gate log.
Home folders: Run the society (or Run the school), Gate, Operations.

9.1 Home and Society / School manager

AI co-pilot

Who: Admin **Where:** Home → Run the society → Society manager (or School manager)

Title: “Society manager” / “Preschool manager”. Subtitle: “Your AI co-pilot”. Drafts notices and shows insights.

1. Open Society manager / School manager.
2. Read proactive insights. Jump to finance, helpdesk, or gate devices from the action chips if shown.
3. Pick a draft: Monthly notice, Dues reminder, or Money summary.
4. Edit the title and body. Tap Post as announcement when ready.
5. Open Transparency from the manager if you want the books score.

Note. If drafting fails with “AI is off”, the server does not have AI configured. You can still type announcements yourself on Community.

9.2 Finances / Fees tab

Opens on “Finances” or “Fees”. Balance card: Society balance / Fees balance, with Collected and Pending.

Generate monthly bills

Who: Admin **Where:** Finance tab → Generate bills

Modal: “Generate monthly bills”. Bills every unit for the chosen month.

1. Tap Generate bills.

2. Pick the billing month. Choose a flat amount per unit, or generate from Maintenance heads if you set those.
3. Confirm. Residents see the bill on Maintenance / Fees, including a category breakdown when heads were used.

Add an expense

Who: Admin **Where:** Finance tab → Add expense

Modal: “Add expense”. Labelled expenses feed Transparency and the balance.

1. Tap Add expense.
2. Enter amount, label / category, and save.

Remind unpaid people

Who: Admin (Prime for WhatsApp + email reminders) **Where:** Finance tab → Remind unpaid residents / Remind pending fees

Sends a nudge to everyone with a balance, including partial payments. Payment details are included when configured.

1. Tap Remind unpaid residents (or Remind pending fees).
2. Wait until sending finishes. People with the app get a push; email / WhatsApp go out when those channels are configured.

Record cash / view collections

Who: Admin **Where:** Finance tab → Record cash / view collections · screen “Collections”

Subtitle: “Maintenance & cash entries”. Residents pay online; cash is recorded here.

1. Open Record cash / view collections.
2. Find the unpaid bill. Tap Cash.
3. On “Record cash payment”, enter Collected by and Collector phone (optional).
4. Save. A cash receipt is stored (method: Cash (collected offline)).

Payment audit (flat / student ledger)

Who: Admin **Where:** Finance → Payment audit — full flat history · or tap a unit under Flat-wise / Student-wise status

Full bill and payment history for one unit, from the beginning.

1. On Finances, expand a wing / class, tap a unit — or open Payment audit.
2. Read every bill and payment with running totals. Use this for disputes.

Maintenance heads

Who: Admin (society) **Where:** Finance → Maintenance heads (sinking fund, water...)

Split the monthly figure into heads (security, water, sinking fund, common, and so on). Residents see the split on the bill.

1. Open Maintenance heads.
2. Add or edit heads and amounts.
3. Generate bills from heads next month so the breakdown is on each bill.

Late fee policy

Who: Admin **Where:** Finance → Late fee policy

Late fees apply only after due date plus grace — not on months paid in advance.

1. Open Late fee policy.
2. Turn on “Charge a late fee on overdue bills”.
3. Choose Flat once, Per day, or % / month. Enter amount, grace days, and optional cap.
4. Save.

Amenities / hall as admin

Who: Admin (Prime) **Where:** Finance → Amenities & clubhouse bookings (or Open hall bookings)

Create facilities (Morning / Afternoon / Evening slots by default), set prices, approve or decline resident requests.

1. Open the amenities / hall screen.
2. Tap + to add a facility. Edit slots and prices.
3. On pending requests, Approve or decline. After Approve, the resident pays to confirm.
4. Enable or disable a facility when it should not be booked.

Reports & backup

Who: Admin (Prime for exports / automated backup) **Where:** Finance → Reports & backup (wing-wise, PDF) · preschool: Reports & backup (visitors, staff)

Title: “Reports & backup”.

1. Open Reports & backup.
2. Run the wing-wise / class-wise or visitor / staff export the screen offers (PDF / DOC as provided).
3. Use email backup if offered on your plan.

Vendor marketplace

Who: Admin (society) **Where:** Finance → Vendor marketplace (premium)

Title: “Vendor marketplace”. Subtitle: “Rent society premises to vendors”.

1. Open Vendor marketplace.
2. Create a listing / booking for a vendor.
3. Share a Razorpay pay link or Mark paid when money is received.

Pay to GATEZO (subscription)

Who: Admin **Where:** Finance → GATEZO subscription — Pay to GATEZO

Title: “Pay to GATEZO”. Subtitle: “Platform subscription”. Pays the platform, not your society account.

1. Open Pay to GATEZO.
2. Complete checkout the same way as other Razorpay payments.

9.3 Members / Accounts

Self-registration code

Who: Admin **Where:** Members tab → Self-registration code

Share a code so residents / parents can Register on the login screen.

1. Open Members (Accounts in preschool).
2. On Self-registration code, tap Share (or generate New code if you need to rotate it).
3. Send the code only to people who should join.
4. When they register, they appear as pending. Tap Approve or Reject.

Create an account yourself

Who: Admin **Where:** Members → + New account · screen “New account”

Create Resident / Parent, Guard, or Admin with a temporary password.

1. Tap + New account.
2. Choose role chips: Resident (or Parent), Guard, Admin.
3. Enter name, email, phone, unit, and a temporary password (same strength rule: 8+ chars, upper, lower, number).
4. Tap Create account. Share the email and temp password. Ask them to Change password after first Sign In.

Note. Empty members list: “No accounts yet. Tap New account.” Enable / Disable / Delete exist on each row. Disable stops login without deleting history.

Flats / Students and bulk setup

Who: Admin **Where:** Members → Flats / Students · Bulk setup

Add units one by one, or generate a wing/floor structure, or Import CSV.

1. Open Flats (Students).
2. Add a unit, or tap Bulk setup.
3. Generate structure: enter wings (e.g. A,B), floors, flats per floor, starting floor/unit → preview → create. You can rename rows in preview (soft cap around 600 editable rows).
4. Or Import CSV. Columns include flatNo, block, ownerName, occupancy, rentMaintenanceAmount, memberName, email, phone, role.
5. Mark occupancy (owner / rented) and optional rented-flat maintenance override.

Bank account (where payments land)

Who: Admin **Where:** Members → Bank · screen “Bank account”

Payout UPI / bank details shown to residents when they pay.

1. Open Bank account.
2. Enter UPI and/or bank details.
3. Save. Residents see “Payments go to ...” and “Society UPI · ...” on the bills tab.

Rent agreements (admin)

Who: Admin (society, Prime) **Where:** Members stack → Rent agreements

Subtitle: “Verify tenant leases & track expiry”.

1. Open Rent agreements.
2. Verify submitted leases, track expiry, and keep rented-flat maintenance overrides consistent with Flats.

Gate scanners and vehicle gate

Who: Admin (Platinum) **Where:** Members → Gate scanners · Home → Gate → Vehicle gate

Title: “Gate scanners” — “Connect entry-lane devices”. Vehicle QR registry lives with Vehicle passes.

1. Open Gate scanners to connect entry-lane devices if your site has them.
2. Open Vehicle gate / Vehicle passes to manage the QR registry.

Plans & pricing (view)

Who: Admin **Where:** Home → Operations → Your plan · Members → Plans & pricing

See Base / Prime / Platinum feature lists. Changing the plan is done by the GATEZO platform owner on Societies.

1. Open Plans & pricing.
2. Read what your current package includes. Ask the owner if you need an upgrade.

9.4 Community as admin

1. Announcements: on Community → Announcements tap + → “New announcement” (title, message, optional Pin to top).
2. Delete an announcement if needed (confirm “Remove this announcement?”).
3. Board: moderate / delete posts. You can also post.
4. Helpdesk: open any ticket. Move Open → In progress → Resolved and add a resolution note.
5. Home Services: tab Orders to see resident bookings.

9.5 Gate log

Same Gate log as guards (chapter 8.4). Admins see all entries for the organisation.

9.6 Assets & AMC

Assets and service due dates

Who: Admin **Where:** Home → Operations → Assets & AMC (preschool: School assets)

Title: “Assets & AMC”. Subtitle: “Lifts, pumps, DG, fire gear & service” (school: rooms, kits & service due dates).

1. Open Assets & AMC.
2. Add an asset and service / AMC due dates.
3. Use the list to see what is due.

9.7 AGM as admin (society)

1. Open AGM & voting from Operations or Finance stack.
2. Create a motion, open voting, record quorum, add minutes.
3. Residents vote from their AGM screen.

9.8 Rental compliance (society)

Rental compliance

Who: Admin (society) **Where:** Home → Operations → Rental compliance

Title: “Rental compliance”. Subtitle: “Verification, checklists & deposits”.

1. Open Rental compliance.
2. Work through verification, checklists and deposits as the screen lists them.

9.9 Sustainability as admin (society)

1. Open Sustainability from Operations or Finance.

2. Record litres used this month per flat (tap + or import CSV).
3. GATEZO compares each flat with the median. Residents see their own score.

10. Preschool extras

These screens appear when the organisation type is preschool. Society logins do not see them.

10.1 My child (parent)

Today at school and pickup people

Who: Parent **Where:** Home → School → My child

Title: "My child". Subtitle: "Today at school & pickup passes".

1. Open My child.
2. Read Today at school updates (Meal, Nap, Mood, Activity, Health, Note) posted by the office.
3. Under Authorized to pick up, tap + Add person. Relation chips: Parent, Grandparent, Driver, Relative, Other.
4. Share the pickup QR / pass with that person.
5. Remove a person if they should no longer collect the child — their pass stops working.

10.2 Pickups & updates (admin)

Post a daily update

Who: Preschool admin **Where:** Home → Run the school → Pickups & updates

Title: "Pickups & updates". Subtitle: "Post updates & manage pickup passes".

1. Open Pickups & updates.
2. Select the student.
3. Tap + Post update. Choose Meal, Nap, Mood, Activity, Health, or Note.
4. Save. The parent sees it on My child.
5. Manage authorized pickup people from the same area when needed.

10.3 Child pickup (guard)

See 8.5. Always Verify the pass. Never release if the screen says the pass is not valid.

10.4 Staff attendance

Check in / check out staff

Who: Preschool admin and guard **Where:** Tab: Staff · Home shortcuts Staff attendance

Title: "Staff attendance". Role chips: Teacher, Helper, Security, Admin, Other.

1. Open Staff.
2. Enter Staff name, optional Phone, pick a role chip.
3. Tap Check in.
4. When they leave, Check out on their row.
5. Empty: "No staff checked in today." Admins can export this via Reports & backup (visitors, staff).

10.5 Student fees

Track and remind per student

Who: Preschool admin **Where:** Finance → Student fees — track & remind · screen “Fees — Students”

Student-wise fee tracking with partial payments and optional per-student reminder dates.

1. Open Student fees — track & remind.
2. Review paid / pending per student.
3. Send reminders from Fees (Remind pending fees) or from the student-fees screen when offered.

10.6 Pay fees (parent)

Same as 7.7, on the Fees tab. Home shortcut: Pay fees.

11. Platform owner (superadmin)

Bottom tabs: Overview · Societies. This login is not a society member login.

11.1 Overview

GATEZO Platform

Who: Superadmin **Where:** Tab: Overview

Title: “GATEZO Platform”. Counts across organisations, month snapshot, shortcuts to moderate Buy & Sell and Backup & recovery.

1. Open Overview.
2. Use the month selector for a snapshot across tenants.
3. Open Moderate Buy & Sell to search, disable, or delete listings across societies.
4. Open Backup & recovery for platform backups (run / download / email).

11.2 Societies — onboard an organisation

Onboard an organization

Who: Superadmin **Where:** Societies tab → add / Onboard an organization

Create a Society or Preschool (org type). Seed data in a demo environment is society-only; preschools are created here.

1. Open Societies.
2. Open Onboard an organization.
3. Enter organisation name, type (society or preschool), and the first admin details as the form asks.
4. Save. Share the admin email and temporary password.
5. Optionally bulk-import units if the onboard form / CSV path is shown.

11.3 Per-organisation actions

On each society / preschool card:

- Add admin — create another admin for that tenant.
- Plan — set Base / Prime / Platinum (this unlocks or locks features for every member of that tenant).

- Branding — name / background. “Members will see the new name/background the next time they open the app.”
- Activate / Deactivate — deactivated tenants cannot sign in (login explains the organisation is inactive).
- Open a tenant, then a flat/student, for Payment audit across the platform.
- Backup & recovery from the Societies stack as well as Overview.

12. How payments work (UPI, card, cash)

Online collections use Razorpay. Cash is recorded only by admin.

What	Who pays	How
Maintenance / fees bill	Resident / Parent	Pay → Pay via UPI sheet → Google Pay, PhonePe, Paytm, UPI ID / QR, or Card / net banking.
Amenity / hall booking	Resident / Parent after admin Approve	Same UPI sheet, when status is Approved · pay to confirm.
Cash at the office	Resident hands cash; admin records	Collections → Cash → Collected by.
GATEZO subscription	Society / preschool admin	Pay to GATEZO.
Vendor / venue booking	Vendor (or admin marks paid)	Vendor marketplace pay link or Mark paid.
Home Services visit	Resident books in-app	Book visit — partner / offline fulfilment as configured.

Note. The checkout name should be GATEZO. If an old phone build still shows another name, install the latest APK. UPI apps must be installed on the phone for Google Pay / PhonePe / Paytm buttons to open those apps.

13. Ask GATEZO and Assistant — what to type

Prime plan. Home box and Community → Assistant share the same help. Live amounts (what you owe, who visited) come from your data, not from this PDF.

You can ask	Opens / explains
How much maintenance do I owe? / How much is pending?	Your outstanding bills
How is the bill divided?	Maintenance heads split
Where can I get a receipt?	Paid bills on Maintenance
Who visited my flat?	Visitors
How do I approve a visitor? / make a gate pass?	Visitors / Gate passes
How do I book the clubhouse?	Amenities
How do I book AC service?	Home Services
How do I raise a complaint?	Helpdesk
What is the transparency score? / Where did money go?	Transparency
What is the green score?	Sustainability
How do I vote in the AGM?	AGM & voting
How do I sell something?	Community market
What can GATEZO do?	Help overview

Guards can ask gate questions (for example who the last visitor was). Admins can ask about pending dues and tickets.

14. Tips, limits and troubleshooting

What you notice	What to do
First Sign In is slow	The hosted server may be waking up after idle. Wait and retry once.
Can't reach the GATEZO server	Check internet. Do not set Server URL to localhost on a phone.
Locked shortcut / Prime feature	Your organisation's plan does not include it. Admin: Your plan. Owner: Societies → Plan.
Voice / mic 404 or Request failed	Type in Ask GATEZO instead, or wait until the office's live API includes transcription.
My number is missing in Directory	Profile → turn on Show my phone in directory.
Late fee looks wrong	It applies only after due date + grace, never on months paid in advance.
Visitor notification	Tap it to jump to Visitors.
Keyboard covers a form	The screen should scroll the field up. Tap the field again if needed.
Need human help	Profile → Support & feedback, or Helpdesk → Call office.

What the app does in the background

- Push notifications for visitors, tickets, announcements, gate passes, and payments (when enabled).
- Reminders over push, and email / WhatsApp when the office has those connected (Prime).
- Monthly backup email to admin when backups are on (Prime).
- Each society / preschool's data is kept separate.

Android and iPhone

Today members typically install the Android APK. GATEZO is the same Expo app on iPhone; iPhone distribution needs Apple TestFlight or the App Store (Apple Developer enrolment). Until that is published, iPhone users can use the web app if the office shares the link.

Appendix A — Feature map (quick find)

I want to...	Role	Go here
Pay my bill / get a receipt	Resident / Parent	Maintenance / Fees → Pay
Approve a guest at the gate	Resident / Parent	Visitors
Let a delivery in without a call	Resident / Parent	Visitors → Gate passes
Book the hall	Resident / Parent	Community → Book clubhouse / Book hall
Raise a complaint	Resident / Parent	Community → Helpdesk
Sell a sofa	Resident / Parent	Community → Buy & Sell
Book AC service	Resident (society)	Home → Home services
See where money went	Resident / Admin	Home → Your society → Transparency

Vote in the AGM	Resident (society)	Home → Your society → AGM & voting
Log a visitor	Guard	Gate
Admit a gate-pass code	Guard	Gate → Admit a pre-approved pass
Release a child at pickup	Guard (preschool)	Child pickup → Verify
Generate this month's bills	Admin	Finance → Generate bills
Record cash	Admin	Collections → Cash
Approve a new member	Admin	Members → Approve
Post a notice	Admin	Community → Announcements → +
Add a preschool	Owner	Societies → Onboard an organization
Upgrade a society to Prime	Owner	Societies → Plan

Appendix B — Demo / training logins

Important. Use these only on the official demo environment your trainer gives you. Change passwords on any live society. Do not use demo passwords on a production society that has real residents.

Demo password for seeded users (when the trainer has loaded seed data): Password123

Email	Role	Typical tenant
owner@h2o.com	Platform owner	All organisations
admin@h2o.com	Admin	Demo society (e.g. Green Valley)
guard@h2o.com	Guard	Same demo society
resident@h2o.com	Resident (example unit A-101)	Same demo society

Other seeded demo emails (same password) may include admin2@h2o.com, guard2@h2o.com, resident1b@h2o.com, resident2@h2o.com, resident3@h2o.com, and a second society such as admin@skyline.com / guard@skyline.com / resident@skyline.com. Preschool tenants are created by the owner, not by seed.

Appendix C — Document control

Item	Detail
Product name	GATEZO
Audience	Members, gate staff, office admins, platform owner
Matches app screens as of	September 2026 (AI-first GATEZO build)
In-app twin	Community → Help & how-to · Ask GATEZO
Not in this manual	Server deploy, EAS build, and investor financials — those are operations docs, not member how-to.

GATEZO — one AI-first app for gated societies and preschools.

End of user manual.
